[https://github.com/mehranshakarami/AI\\_Spectrum/tree/main/2021/Twitter\\_API](https://github.com/mehranshakarami/AI_Spectrum/tree/main/2021/Twitter_API)

Create file in vs code named config.ini

Write code to Input the keys and token

Open terminal and input:

- pip install tweepy

- to use the tweepy library

- pip install configparser

- to get info or the secret keys in the config.ini file

- pip install pandas

- so we can save the data to a csv file
